

SHURETECH® SL SERIES

SHURETECH®
BENCH SYSTEM

The SHURETECH® SL SERIES is the newest design option from Shure! Each cabinet door is done in an overlay design. This design removes traditional handles, decreases visible lines and promotes an unencumbered appearance. Center mullions have been removed from lower double door cabinets, allowing you to freely store larger items. A technology cabinet features a built-in keyboard / mouse tray and flush-mount monitor chase panel with (2) pre-wired power strips providing a total of (8) grounded outlets, (4) USB ports and backlit on / off switches. The technician locker cabinet with (5) drawers, (2) shelves, a hanging rod and middle divider is perfect for storing garments and other personal property.

All the same storage solutions found in the traditional SHURETECH® product line can also be found here: cart lockers, lift control cabinets, trash cabinets, sink stations and the list goes on!

**Flush-Mount Monitor Chase Panel requires an actual monitor to be shipped to Shure for proper cutout design and fitment. Monitor will be returned to customer with shipment of Shure Product. Spacing limitations vary.*
